**Welcome to Westcott Venture Park,  
a thriving 650-acre business community.**

It offers state-of-the-art industrial, manufacturing and office spaces across diverse industries, and is at the forefront of the UK space industry. Westcott is the recognised epicentre of UK Rocket Propulsion and home to the Westcott Space Cluster.

This innovation hub is expanding with over 78,000 sq ft of new research facilities, advanced manufacturing capabilities, testing laboratories, and premium office space. With expansive space and unrivalled security, Westcott provides the perfect environment for forward-thinking businesses to achieve sustainable growth and lasting prosperity.

WEBSITE

A central hub facility at the heart of **Westcott Venture Park.**

Welcome to **Skylark**

Where **premium** workspace meets **community** hub.

# Skylark offices

**First-class** workspace at the heart of a **vibrant community** hub.

Located right in the centre of park, the **Skylark** building is a landmark development at Westcott, providing a modern central hub facility for businesses across the park including a restaurant and bookable conference centre and meeting rooms.

Flexible first floor offices available to pre-let which can be split to provide three suites of circa 1,500 sq ft, a larger suite of 3,864 sq ft or the entire first floor of 5,521 sq ft.

Skylark is expected to achieve BREEAM 'Excellent' Certification.

# Strategic spaces built to inspire productivity and growth

**First floor**  
1,657 to 5,521 sq ft  
Measured to GIA

Practical completion due in Q4 2025 and pre-let opportunities available.

# Landmark facility with state of the art amenities

BREEAM 'Excellent'

96 seater restaurant

Air conditioning

Lift to first floor

Abundance of natural light

Suspended ceiling with LED lighting

Raised floors

Ground floor conference centre

Ground floor meeting room facilities 30 – 100 people

22 car parking spaces and 3 accessible spaces\*

Capacity for 17 EVCs\*

Own front door

We're using eco-friendly materials throughout the construction, including:

- Recycled metal wall panels with mineral fibre insulation
- Cedar wood cladding
- Low-emission fuel for construction equipment
- Recycled steel for the building structure (65% of total steel used)
- Low carbon raised access flooring system

\* Car parking spaces will be allocated based on tenant requirements and agreed through lease arrangements.

The total carbon reduction of these measures is **378,698.00 kgCO<sub>2</sub>e**

Secure the future of your business  
in a location that offers **space and  
security** for **sustainable** growth.

# One of the UK's pioneering **energy-positive** business parks

At Westcott, sustainability isn't just an initiative – it's our foundation as one of the UK's pioneering energy-positive business parks, generating more renewable energy annually than our tenants consume.

Expansive solar arrays power our operations while our 10,000-tree native woodland, thriving bee colonies, protected butterfly habitats, and dedicated conservation areas for newts, bats, and owls create a harmonious balance between modern business and nature.

Tenants enjoy access to our 650 acres, experiencing firsthand our commitment to 'Space and security for sustainable growth'. This approach has a positive environmental impact and creates an exceptional working environment.

# Still blasting off, nearly **80 years** on

Westcott is synonymous with rocketry and propulsion engineering for both launchers and satellites. Our proud heritage continues to flourish as a premier development and testing zone for the world's leading aerospace and propulsion technology pioneers.

With a long history of propulsion testing, Westcott offers a secure site with an established regulatory and safety regime, ideal for testing a wide variety of rocket propulsion systems. This unique advantage allows companies to research, develop, and test new technologies all in one place.

Westcott is home to leading companies in the Space and Rocketry sectors including Nammo, Airborne Engineering, URA Thrusters, European Astrotech, Protolaunch and many more.

# Westcott Space Cluster. Where **innovation** takes flight.

Attracting over £40 million in investment, the Westcott Space Cluster stands as a globally recognised cornerstone of the UK's space sector growth strategy.

This thriving hub, with over 50 years of rocket testing heritage, brings together pioneering companies developing cutting-edge technologies in propulsion, in-orbit servicing, manufacturing, 5G communications, and drone innovations - all within a secure environment specifically designed for safety-critical testing.

At its heart lies the National Space Propulsion Test Facility, the UK's only dedicated centre for testing state-of-the-art satellite propulsion engines in space-like conditions.

The cluster supports both established aerospace leaders and incubates promising space tech startups, while also advancing sustainable propellant research and drone development through its specialised Drone Test and Development Centre.

Westcott continues to cement its position at the forefront of the UK space industry, driving innovation in everything from commercial telecommunications satellites to interplanetary travel technologies.

Right where you need to be.  
**Strategically** located at the heart  
of the **Oxford-Cambridge Arc**

Westcott Venture Park is nestled in the historic village of Westcott in the Aylesbury Vale district of Buckinghamshire.

### Travel

#### Rail

From Oxford, Bicester and Aylesbury, you're a short ride down to London Marylebone and Paddington, or up to Birmingham and the North.

#### Air

If you're traveling in by air, both Birmingham and Heathrow airports are less than 90 minutes away.
