THE GROWTH CORRIDOR

Royston is located in the heart of the Cambridge/Milton Keynes/Oxford Growth Corridor, which is of vital economic importance in the UK; home to leading international universities and science & technology companies. This disaggregated 'cluster' of high growth industries across the corridor has the potential to expand and evolve, to deliver a far greater contribution to the wealth of the region and the country as a whole.

With its excellent train links to Cambridge (15 mins) and London King's Cross (30mins), Royston is well placed to take advantage of the 'tech' sector. The park is ideally situated for an HQ facility from which to operate within this growing sector.
